BRICK COLLECTION

# AMFORA RANGE SPEC GUIDE

[LOHASAU.COM](http://LOHASAU.COM)

Classic, pure look

Matte, slightly rough texture on the front  
a lively architecture

Pure color

New colors in Eco-brick  
format

Neutral, subdued to colour

## A facing brick with pure, natural strength

-

This collection, named after the renowned jars used by ancient Greeks and Romans for storing liquids and food, draws inspiration from those clay amphorae. Just like the originals, Amphora facing bricks by Wienerberger boast a classic and pure aesthetic. This collection exudes a minimalist, timeless, and organic charm.

## A subdued palette of neutral colors

Amphora facing bricks are crafted through clay moulding and stripped using the Wasserstrich method, paying homage to the liquid contents of ancient jars. These ceramic bricks feature a matte, subtly rough texture, offering a smooth and delicately nuanced appearance. The subdued tones, characteristic of the Amphora collection, exude a modest yet warm sensitivity. Choosing Amphora means creating a luminous, airy ambiance with refined accents in any project. These bricks not only elevate each project but also contribute to vivacious architecture with a timeless appeal.

## New colours in Eco-brick format

In terms of sustainability, Amphora stands as an excellent choice. The latest facing bricks in this collection are available in the slimmer Eco-brick format, providing extra space for insulation and expanding living areas. This eco-conscious option not only enhances energy efficiency but also promotes a greener and more spacious living environment, making Amphora a thoughtful and eco-friendly selection for any architectural project.

# Amfora: Range Overview

Amfora Rino Grey  
Eco-brick WF ± 210x65x50 mm

Porosity: ≤ 13%  
IW2 - low suction

Amfora Zafferano  
WF ± 215x102x50 mm

Porosity: ≤ 17%  
IW3 - normal sucking

Amfora Misto Grey  
Eco-brick WF ± 210x65x50 mm  
WDF ± 215x65x65 mm

Porosity: ≤ 13%  
IW2 - low suction

Amfora Duno Beige  
Eco-brick WF ± 210x65x50 mm

Porosity: ≤ 13%  
IW2 - low suction

**Amfora Silvo Grey**  
Eco-brick WF ± 210x65x50 mm  
WDF ± 215x65x65 mm

Porosity: ≤ 15%  
IW3 - low suction

**Amfora Puro White**  
Eco-brick WF ± 210x65x50 mm

Porosity: ≤ 13%  
IW2 - low suction

**Amfora Castana**  
WF ± 215x102x50 mm

Porosity: ≤ 13%  
IW3 - low suction

**Amfora Rubino**  
WF ± 215x102x50 mm

Porosity: ≤ 15%  
IW3 - normal sucking

**Amfora Westcliffe Weathered**  
WF ± 215x102x65 mm

Porosity: ≤ 13%  
IW3 - low suction
