Tight

Limited width

Archipolis: a rich collection

-

Archipolis represents a lavish, opulent collection boasting vibrant engobes and bold textures and shades. Its palette is simultaneously warm and fresh, bright and rich. This slim stone opens up unique visual possibilities, making it perfect for creating a sleek, character-filled facade. With its sharp lines and narrow width, Archipolis offers room for added insulation and additional living space. The collection exudes a dark, atmospheric passion, blending a touch of contemporary decadence with a stylish retro aesthetic.

Exclusively in the slim Eco-brick format

-

In terms of sustainability, Archipolis is an excellent choice. These facing bricks will be exclusively offered in the slimmer Eco-brick format that extra offers space for insulation or creates more living space.
