shades

Pure Clay

Back to nature

■

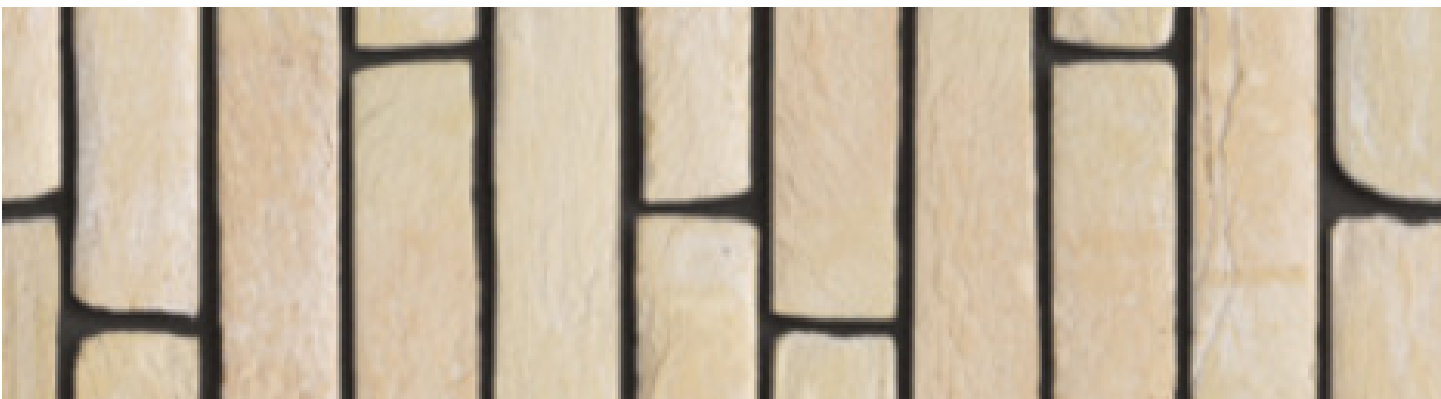

The Tolus collection draws inspiration from the beauty of nature, embodying a connected, understated style reflected in its authentic finishes and colours that blend seamlessly into any environment. Tolus embraces the essence of nature and promotes sustainable architecture with a strong emphasis on simplicity and tranquility within the surroundings.

Organic color palette

Tolus seamlessly merges the colours and textures found in nature into architectural designs. The blend of bricks with natural materials like wood effortlessly harmonises, creating layers of neutral tones. This soft, tonal effect imparts a sense of lightness while enhancing the natural ambiance. With hues of gray, yellow, and purple, the palette crafts a tranquil, calming atmosphere. Tolus is the perfect collection for those seeking a daily connection with the outdoors.

Exclusively in the slim Eco-brick format

Available exclusively in the slim Eco-brick format, Tolus stands as an excellent choice in terms of sustainability. These facing bricks provide additional space for insulation or the creation of more living space, making them an eco-conscious and practical option for architectural projects.
